📍 Sector 10, Uttara, Dhaka, Bangladesh

SUMMARY

Enthusiastic Software Engineer with a strong background in full-stack development using the MERN stack. Currently focused on frontend engineering, with hands-on expertise in building scalable applications, improving performance, and managing databases. Proficient with modern tools like Docker and AWS, and driven to grow while contributing to impactful projects.

EXPERIENCE

Software Engineer (Frontend)

EWN BD 📅 01/10/2025 Present 📍 Dhaka, Bangladesh

Software Development & IT Solutions Company

- Developed responsive UI using React and Next.js.
- Styled components with Tailwind CSS for modern, mobile-first design.
- Managed global state with Zustand for efficient state handling.
- Integrated REST APIs for dynamic tour and travel data
- Ensured RTL (Arabic) support and optimized performance for diverse devices.

Software Engineer (Frontend)

Qcoom LTD 📅 06/2024 30/09/2025 📍 Dhaka, Bangladesh

A leading e-commerce platform

- Contributed to a high-traffic e-commerce platform serving thousands of users
- Integrated secure payment gateways for seamless banking transactions
- Collaborated with backend teams to optimize RESTful APIs endpoints
- Implemented role-based access control (RBAC) for improved security
- Improved SEO page speed using SSR (Server-Side Rendering) lazy loading

Junior Software Engineer

Aurora IT-21 📅 08/2023 02/2024 📍 Dhaka, Bangladesh

A software development company

- Designed and developed full-stack MERN applications with a focus on performance.
- Built RESTful APIs for seamless frontend-backend communication.
- Optimized database queries, reducing response times by 30%.
- Implemented authentication with JWT, ensuring secure access
